War Food Administration,
Summary to WFO-92 Amendment 4.

Manufacturers of foreign type cheeses may produce approximately the same quantities of these cheeses during the period July 15 through September this year as they produced during the same weeks of the 1942 base period, under a revision of War Food Order 92 announced today by the Department of Agriculture.

Production restrictions for foreign type

cheeses, controlled under this order as amended, were suspended on June 8 for the period until July 15. The amendment announced today permits each manufacturer to produce 90 percent as much of these cheeses during the two and one-half month period, from July 15 to the end of September, as he produced during the three month period July-September 1942. This will permit a production slightly above that of the same weeks of the base period.

It was previously announced that a manufacturer could produce as much during the July 15 through September period this year as he produced in the July-September full three-month period in 1942. This would have permitted production about 20 percent above that of the corresponding period of 1942.

The limitations of War Food Order 92 are in line with the Department's policy to conserve milk for dairy products needed for military and other governmental purposes.
